# Special Olympics **Healthy Athletes®**

---

Healthy Athletes is a Special Olympics program that provides free health screenings in a fun, welcoming environment that removes the anxiety and fear people with intellectual disabilities often experience when faced with a visit to a doctor or dentist. Special Olympics recognizes that when athletes are in their best physical health they train and compete at their highest level. The Healthy Athletes program is dedicated to providing health services and education to Special Olympics athletes, and changing the way health systems interact with people with intellectual disabilities. We not only serve athletes at events but also train health care professionals who then go back to their practices with increased knowledge of and compassion for people with intellectual disabilities. With more than 1.6 million free health examinations conducted in more than 130 countries, the Special Olympics Healthy Athletes® program has become the largest global public health organization dedicated to serving people with intellectual disabilities. Please join us in 2017, athletes with a current medical on file at SOWI's headquarters are welcome to attend any Healthy Athletes event, even if they are not competing at the tournament.

Special Olympics Health is made possible by the vision and support of the Golisano Foundation, and partners such as the U.S. Centers for Disease Control and Prevention, and Lions Clubs International. Funding was provided by Delta Dental of Wisconsin, Inc. for SOWI's Special Smiles program.
